## ACKNOWLEDGMENTS

---

The South Florida Water Management District gratefully acknowledges the many professionals who have contributed to the *2008 South Florida Environmental Report* (2008 SFER).

**Authors:** As reflected below, this two-volume report was developed by over 200 authors and contributors from the South Florida Water Management District, the Florida Department of Environmental Protection, and other supporting agencies and organizations with expertise in the chapter topics of this report. Along with these many individuals, the professionalism and dedication of chapter leads are thankfully recognized.

**Editorial and Production Team:** To organize the development of this lengthy report under tight deadlines, continuous project management and close teamwork by the SFER production management team is required throughout the report production process. The team demonstrates advanced organizational skills as it expertly guides this annual process. The exceptional cooperation and productivity of the 2008 SFER editorial and production team listed below are respectfully acknowledged.

---

### 2008 SFER – Editorial and Production Team

---

<b>Production Manager:</b>	Stacey Ollis	Azeredo, Dee	Loftin, Jan
<b>Vol. I Project Manager:</b>	Garth Redfield	Bergstrom, Doug	Lynch, Patrick
<b>Vol. II Project Manager:</b>	David Gilpin-Hudson	Chen, Ken	Malone, Diane
		Duffey, Brenda	Negley, Ellen
		LaRock, Julianne	Ross, Barbara
		Lindstrom, Linda	Stein, Trudy

The outstanding work performed under contract to the District by the SFER technical editors, Shauna Graham (Aquent) and Wendy Wagman (Metcalf & Eddy), and the SFER Executive Summary graphic designer, Gail Marcarelli (Aquent), is also immensely appreciated.

**Project Team:** The management of Volume I is centered in the District’s Environmental Resource Assessment Department. The Volume I staff works closely with the Florida Department of Environmental Protection’s Water Quality Standards and Special Projects Program to jointly coordinate the creation of Volume I, Chapter 3, and its associated appendices. The District’s Finance and Administration Department provides oversight and support for the development of Volume II. Along with the significant contributions of these project management teams, this large, multidisciplinary document could not be produced without the guidance of our agencies’ executive managers.

**Peer Review and Public Workshop:** The incredible knowledge and experience of the expert panel assembled for the 2008 SFER Peer Review and Public Workshop are greatly valued. The panel provided insightful and thorough scientific peer review in the major subject areas covered in Volume I. The District’s Environmental Resource Assessment staff, particularly Linda Davis, is also recognized for successfully organizing the panelists and conducting this year’s workshop.

**Other Contributors:** The extensive amount of data and other information provided throughout Volume I are largely supported by the three divisions of the District’s Environmental Resource Assessment Department – Water Quality Monitoring, Water Quality Analysis, and Water Quality Assessment. The long list of individuals throughout these divisions that have contributed to the essential data collection, monitoring, analyses, validation, and technical assessments for multiple Volume I chapters and appendices continues to contribute to the enormous success of this report, and their efforts are deeply appreciated. Project managers and chapter authors are also appreciatively recognized for updating the 2008 SFER Consolidated Project Report Database, which was maintained by Andrew Kowalsky.
