

Construction of Box Culvert S-675 Lakeside Ranch STA South Project

Project & Lands Committee
September 7, 2016

Alan Shirkey, P.E.
Bureau Chief
Engineering & Construction

Lakeside Ranch Stormwater Treatment Area

Lakeside Ranch STA

Culvert S-675
Crossing SR 700

Box Culvert S-675

- **S-675 consists of three 10ft X 10ft reinforced concrete box culverts.**
- **This structure crosses State Road 700 at the Outlet Canal for Lakeside Ranch STA.**
- **The Outlet Canal conveys treated stormwater from the STA to the L-47 Canal, leading to Lake Okeechobee.**
- **The construction of S-675 is part of the Lakeside Ranch STA South construction.**

Schedule and Status of S-675

- **The Maintenance of Traffic (MOT) plan is under review by FDOT.**
- **The Construction Contract Agreement and Maintenance Memorandum of Agreement with FDOT are scheduled for approval on September's Governing Board Agenda.**
- **The contractor for the Lakeside Ranch STA South construction has 240 days to complete the construction of S-675 upon the MOT plan approval.**
